## Shipping and delivery policy

### Shipment

Orders are mailed in Eco Femme envelopes or plain shipping boxes, depending on the size of your order, and with Eco Femme's return address noted on the item.

Orders are mailed through India Post Service to all destinations in your name. International addressees will receive their parcel through the national post service of their country. This means that upon making your order you are aware of this and you agree that liability for your parcel lies with the Post Service from the moment it is handed over to them. You can support the smooth arrival by tracking your parcel yourself regularly.

### Shipment confirmation

Once your parcel is shipped, you will receive a confirmation email to the email address that you provided upon making your order. This email contains the Registration/Tracking/Consignment Number of your parcel as well as instructions on how to check its status. Please do also check your spam-mail just in case. You can track its location through the India Post "mail service" or via Global Track And Trace. We would be happy that you receive your order smoothly. You can support this by tracking your parcel yourself regularly.

### Delivery point

Orders are sent as 'registered letter'. This means, that delivery handover might require a signature from you. If at the time nobody is present at the delivery address, the delivery person of your local post service might leave a note asking you to pick it up yourself. Just in case, please do check for this note in your letter box and with your neighbors. If you are unsure, track the location of your parcel online and check in with your local post office. In case you find out that your parcel is waiting for you to pick it up at your local post office, please do soon. We would be happy that you receive your order smoothly and avoid your parcel being returned to us upon not having been picked up for too long. We hope to avoid additional shipping charges for you in case we have to send it to you again.

Note: To find your local post office within India, check India Post "locate post office"

### Shipping time for destination within India

India Post speed-post gives a time frame of 2-7 days.

### Shipping time for destination outside of India

India Post Service gives a time frame of 10 to 15 business days for international registered parcels. Our experience is, that the parcels leave India within 2-3 days after we send them out of the Eco Femme office.

Note: India Post Service has no influence on shipping timing or custom clearance timing within the country of destination.

- Italy customs often take 3 weeks to process and Italy Post is not always consistent with updating the location of the parcel for online tracking.
- In some cases in Germany and France the custom service takes 1-2 weeks to release parcels to Deutsche Post / La Poste France.
- We have observed that for some parcels going to the UK and Ireland the custom service takes 2-3 weeks time, while others pass through swiftly.

\* You can support a smooth delivery by tracking your parcel. However not all post services make updates for the location of the parcels and sometimes it has already moved further. If you see information that your parcel is in customs, then you can choose to contact your local post office for information about how to get your parcel.

In case after 18 business days the post service tracking does not show information that the parcel was delivered, we will send an email to the customer, to check in. Please check your spam folder.

For the countries US, Canada, Australia, New Zealand, Belgium whose post services do not update the tracking information, we generally send a check in email after 18 business days to confirm the arrival. Please check your spam folder.

### **Check the status of your order**

Once your parcel is shipped, you will receive a confirmation email to the email address that you provided upon making your order. This email contains the Registration/Tracking/Consignment Number of your parcel as well as instructions on how to check its status. Please do also check your spam-mail just in case. You can track its location through the India Post “mail service” or via Global Track And Trace. We would be happy that you receive your order smoothly. You can support this by tracking your parcel yourself regularly.

Note: The post tracking system is currently not working for parcels going from India to the US, Canada, Australia, New Zealand, Belgium.

Tip: You can also try tracking your parcel with your own country’s Post tracking Service: UK Royal Mail, Deutsche Post, Poste Italiane, La Poste France, Correos Espana, etc.

### **Shipping expenses**

For purchases to shipping destinations within India, which are above Rs 400, the posting through India Post Service is included in the product price. For purchases below that, we add Rs 50 for shipping expenses.

For shipping destinations outside of India, the shipping charges through India Post Service are included in all purchases.

\* In case your parcel is returned to us because the address you supplied was incorrect or you did not keep track of claiming it from your local post office in time before they send it back, we ask you to bear the extra costs. We are a social enterprise where our profits go into social educational programs on menstruation. We preserve our margin to support these programs and hope you understand and support us.

### **Customs fees for delivery destinations outside of India**

While in general, this does not happen to the parcels we send, your parcel may be subject to customs or duty fees upon arrival in your country. Customs policies vary from country to country and fees can be charged for parcels exceeding a certain value. Please keep this in mind at the time of purchase. If in doubt, please check yourself with your local post office prior to ordering. Eco Femme does not bear responsibility for this: You are responsible for any customs or duty fees on your order and Eco Femme cannot grant refunds.

**Lost package policy**

In case after 18 business days you have not received your order, please 1. track your parcel online, and 2. check with your local post office and neighbors to locate it, maybe it was delivered in your absence, 3. do feel free to get in touch with us.

Parcels are considered lost if they don't reach within 21 working days after shipment. If that is the case, please contact us regarding your order at [order@ecofemme.org](mailto:order@ecofemme.org) to get in touch with us how to proceed. In our experience the parcels do eventually show up at the delivery address.

**Incorrect address policy**

You are responsible for making sure that the address you have provided when you check-out of the online shop is accurate. This is the address we will use to ship your order. In case you note that the shipping address you provided is incorrect, please contact us immediately ([order@ecofemme.org](mailto:order@ecofemme.org)). In case your parcel is returned to us due to incorrect address provided by you, we can reship it at your expense. Reshipment is only available once your parcel has been returned to us.

**Unclaimed parcel policy**

In case your parcel is returned to us because you did not keep track of claiming it in time before your local post office sends it back, we ask you to bear the extra costs. Reshipment is only available once your parcel has been returned to us.
